Summary

Full-stack and AI/ML enthusiast with hands-on experience in backend systems, scalable web applications, and computer vision projects. Interested in building practical software solutions and learning modern technologies.

Education

B.Tech in Information Technology	2022 – 2026
ANITS, Visakhapatnam	CGPA: 8.95 / 10
Intermediate	2020 – 2022
Sri Chaitanya Junior College, Srikakulam	74%
SSC	2019 – 2020
St. Paul's High School, Srikakulam	87%

Experience

Full Stack Developer Intern — Coastal Seven Technologies Apr 2026 – Present

- Assisting in developing and maintaining web application features.
- Working with frontend and backend technologies to support project development.
- Collaborating with the team on debugging and improving application functionality.

Projects

Plastic Waste Segregation System

- Built a plastic waste segregation system using YOLOv11 to detect and classify different plastic resin types.
- Integrated the detection model with a mobile application for real-time waste identification and monitoring.
- Developed image-based classification workflows to improve segregation accuracy and support recycling processes.

Intern Management Platform

- Built a full-stack intern management platform with React, FastAPI, PostgreSQL, and SQLAlchemy to streamline intern operations.
- Implemented JWT authentication and role-based access control to secure admin, technical lead, and intern access.
- Developed REST APIs for attendance, task tracking, submissions, evaluations, and notifications to improve workflow management.

Diabetes Risk Predictor

- Implemented a diabetes risk prediction system using Python and Flask to generate reliable risk outcomes from user-provided medical inputs.
- Utilized JSON-based data handling to manage dynamic inputs and produce structured, consistent responses.
- Organized application logic in Python to improve maintainability and support future enhancements.

Skills

Programming: Python, Java, C++, JavaScript

Technologies: FastApi, Flask, HTML, CSS

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code

Core Concepts: Full-Stack Web Development, Backend Logic, OOP, DSA, ML Fundamentals

Certifications

Python for Data Science — IBM (2025)

SQL & Databases — IBM SkillsBuild (2024)

UI/UX Design — Simplilearn (2024)

Languages

English, Telugu, Hindi
